

# RI District 3150, India – RI District 1400, Finland

## Build Communities & Bridge Continents

## RIGHT TO LEARN

Education is priceless - this holds especially true in third world countries. It gives the underprivileged an avenue of escape - it empowers them, making them realize their inherent potential and allows them to go on and be valuable members of society. In India, there are millions of children who attend school, schools which can be described as nothing less than dilapidated holes in the walls. Seedy classrooms, dusty floors and broken furniture are just some of the conditions these children have to face on an everyday basis. Settings less than conducive for a wholesome education wouldn't you say. Rotary District 3150 saw the urgency in addressing this issue and set about funding valuable infrastructure. They provided a number of benches and desks to schools in a number of villages, and are in the process of donating more. At a cost of as little as US \$ 37 a bench can be provided to a school (seating 3 children, 15 benches are needed to furnish a classroom). A small price indeed when you compare it to the extent it will go in educating scores of children. R.I. District 3150 joined hands with Dist. 1400 and are providing 2950 School Desks to various schools in Hyderabad and Secunderabad.
